

Every Hill's product is sampled by our most discerning employees — the dogs and cats at our global Pet Nutrition Center.

These pets give us a number of valuable insights, including:

- Which aromas, tastes and textures pets love
- The right size and shape for each of our foods
- How easily digestible our foods are

Great value for your money

"Best dog food I have ever given them, and I will never switch to any other brand. Science Diet is the best."

- Jtash, Fort Myers, FL

THE BEST!!!!

"My vet put him on Science Diet and he has been on it ever since... his teeth are good, his coat is silky and shiny. I will always buy Science Diet.."

- Michelle52, Schaumburg, IL

The Hill's Philosophy: The right nutrition can transform the life of your pet

- Hill's safety standards are modeled after human food manufacturers and meet or exceed industry standards.
- Our food is based on an in-depth understanding of pet biology combined with cutting-edge food science to deliver food that can transform the lives of pets.

Recommended by Veterinarians Worldwide™

Veterinarians know a healthy pet food when they see one. That's why more of them choose Science Diet® when it comes to their own pets.

Putting Love
into Every Bite

A Hill's Nutrition Guide

THE HILL'S FOOD, SHELTER & LOVE® PROGRAM is supported with every Hill's® pet food purchase, helping more dogs and cats find the loving homes they deserve.

Since 2002, we've supported shelter animals by ensuring they eat precisely balanced nutrition 365 days a year. The result? A growing number of happy, healthy pets going home every year.

Complete and balanced nutrition

Combining nutrition and irresistible taste

All Hill's foods combine science and the right ingredients to deliver the best nutrition for your pet while appealing to all of his or her senses.

-  The rich aroma stimulates your pet's appetite and draws him to the bowl.
-  For variety, choose from many delicious flavours and feeding options.
-  Different textures to keep your pet coming back for more. Choose from dry and canned foods including enticing stews.
-  Every bite is designed with the right shape to help your pet better enjoy his food.
-  Dogs and cats are big and small, so size really matters for their eating enjoyment.

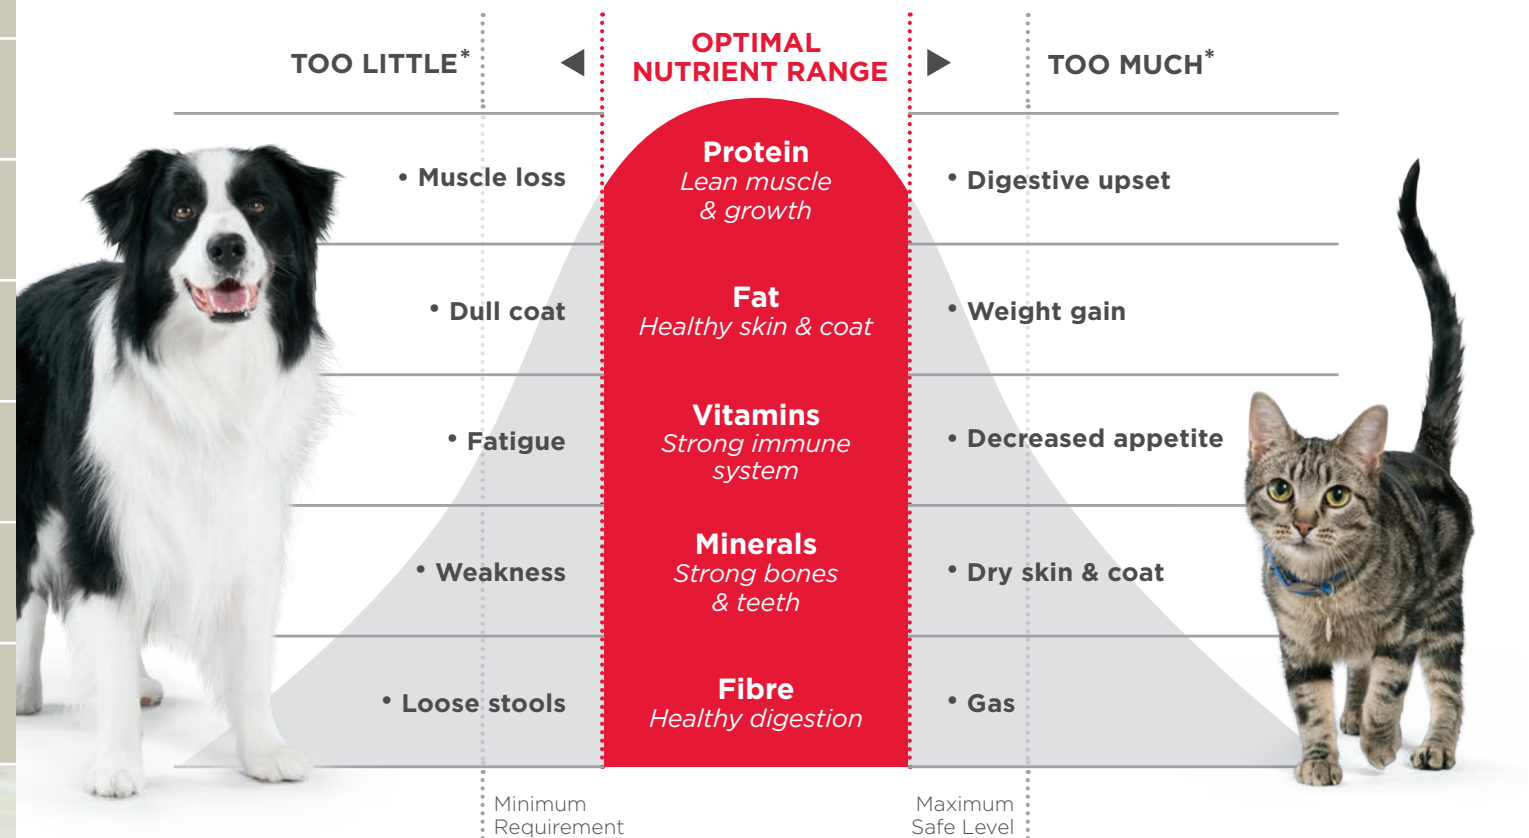

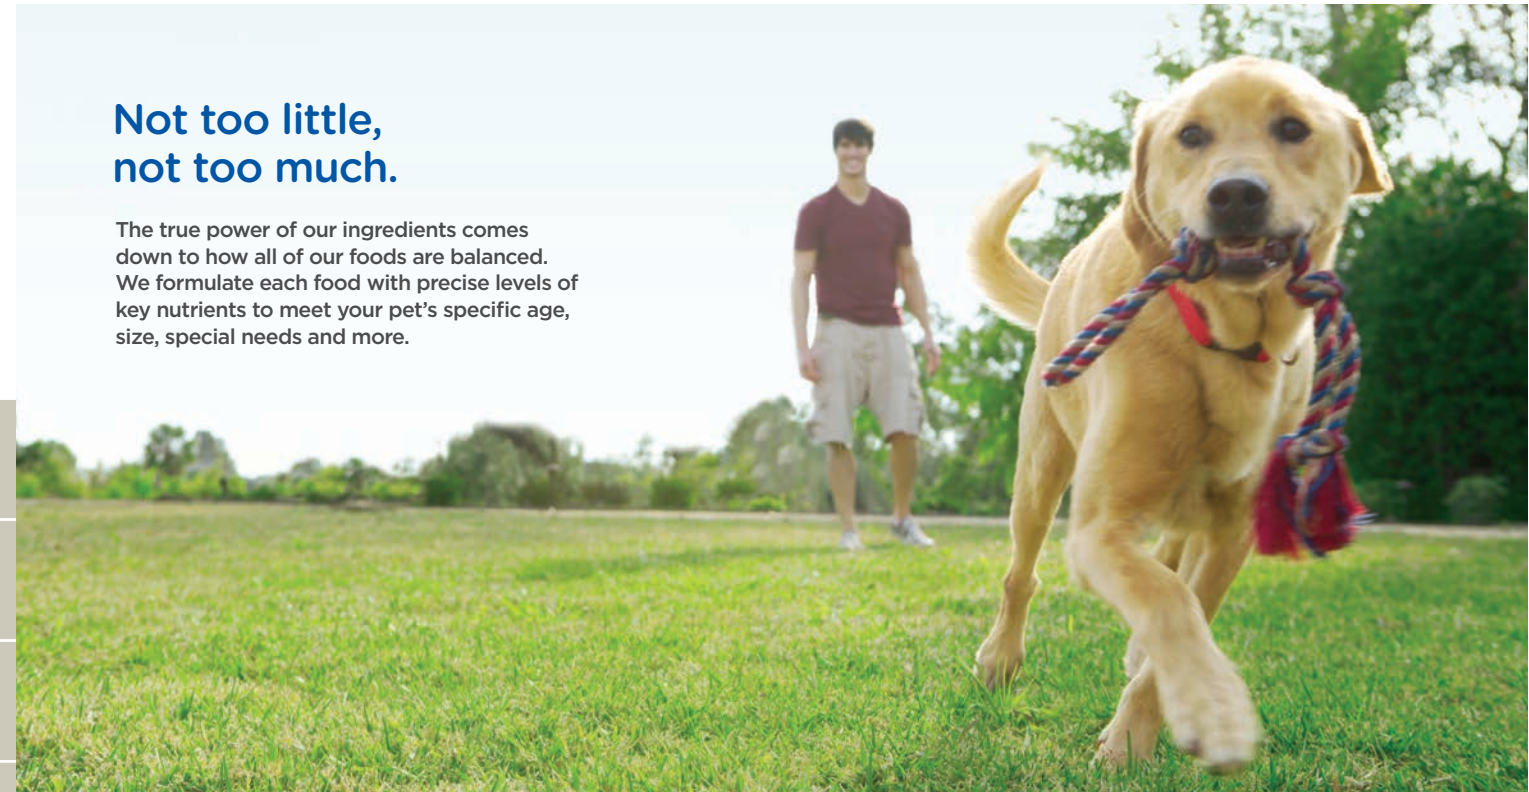

High-quality ingredients to give pets the nutrients they need

Every ingredient Hill's uses must meet our strict requirements for purity and nutrient content.

Vitamins, Minerals & Other Nutrients	Benefit	Source
A	Supports vision, skin and a healthy immune system	Fish oil, liver and vitamin A supplements
D	Helps maintain bones and teeth	Liver and vitamin D supplements
E+C	Help protect cells and support a healthy immune system	Vegetable oils and vitamin E+C supplements
Calcium	Supports strong bones, teeth and muscle function	Chicken, lamb meal, fish meal and mineral supplements
Phosphorus	Helps support bones, teeth, cell and muscle function	Meats, eggs and dairy products
Sodium	Maintains hydration and muscle function	Mineral supplements
Proteins	Maintains muscle and healthy organ function	Chicken, lamb meal and ocean fish
Carbohydrates	Source of quick energy	Barley, oats and brown rice
Fats	Provides energy and essential fatty acids	Fish oil and soybean oil
Omega-3 and -6 Fatty Acids	Promote healthy skin and a shiny coat	Eggs, fish oil and flaxseed

Not too little, not too much.

The true power of our ingredients comes down to how all of our foods are balanced. We formulate each food with precise levels of key nutrients to meet your pet's specific age, size, special needs and more.
